PART 1

THE TRANSPORT CONTRACT
The transport contract referred to in the terms herein is agreed between the Carriers and the Passenger and is governed by the following, in descending order of importance:

3. by the present Thalys Terms and Conditions of Carriage;

The transport contract referred to herein covers all transport carried out with Thalys, excluding any journey carried out with another means of transport (other rail operator, aircraft, bus, tram, metro, taxi, car, etc.), or by foot. Consequently, the transport contract referred to herein does not cover the transfer journey, even if it was between the stations in a same agglomeration unless such a journey is expressly provided for by these Thalys General Terms and Conditions of Carriage.
PART 2

TICKETS
The transport contract is confirmed by one or more tickets issued on paper or electronic media.

The ticket materialises the transport contract, unless otherwise indicated.

Paper and electronic tickets provide proof, until demonstrated otherwise, of the existence and content of the transport contract. With respect to electronic tickets, this provision is only applicable if the Passenger can provide the information recorded electronically, as specified in Article 2.5.1 hereof.

2.1. Acceptance of Thalys Terms and Conditions of Carriage

By purchasing a Thalys ticket by any means whatsoever, and/or by using the Thalys transport service, the Passenger unconditionally accepts the present Thalys Terms and Conditions of Carriage.

2.2. Ticket reservations and conditions of use

To travel by Thalys, Passengers must be in possession of a ticket with a reservation issued in any one of the following forms: IATA/ATB ticket, home-print ticket, Ticketless (see the conditions in article 2.3. below).

A seat reservation is compulsory. The Passenger is obliged to occupy this seat within 15 minutes after departure of the train from the original station for which the reservation was made, at the risk of losing his right to a seat and, if applicable, have his situation normalized in accordance with article 2.5. hereof.

When a Passenger boards a Thalys train without a ticket with seat reservation for that train, he must immediately find the Train Manager to adjust his ticket.

Passengers can request the seat, or seats, they want to reserve via certain sales channels. Seats are allocated based on availability.

Tickets can only be used for a single trip on the date, in the train for origin-destination and in the comfort class indicated. Under certain conditions and subject to availability, some fares do, however, allow Passengers to travel in a different Thalys train on the same day and for the same origin-destination.

When buying a ticket, Passengers must double-check the price, dates, times, itinerary and origin-destination of the ticket they order.

2.3. Ticketless reservations and conditions of use

2.3.1. Introduction
Thalys International has created and manages with THI Factory a service for the Passengers called Ticketless (hereinafter referred to as the “Service” or “Ticketless”). Any person asking for access to the Service is deemed to have unconditionally accepted the conditions of the Service. They are part of the Thalys Terms and Conditions of Carriage.

2.3.2. Object of the Service
Ticketless allows customers wishing to make one or more trips on Thalys trains to travel without a physical ticket, subject to the terms and conditions set out below. The common name for
Ticketless is a “virtual ticket”. It replaces traditional paper tickets. The underlying transport contract only exists in electronic form and information about the journey (Passenger’s name, date and time of the trip, departure and arrival stations, comfort class etc.) is recorded in an electronic format that can be consulted in various ways and inspected in accordance with Article 2.5. below.

2.3.3. Conditions of access
The Service is only accessible to Passengers who have made a reservation and paid the fare for the journey. Ticketless reservations are nominative, personal and non-transferable. The name on the ticket may not be modified. For grouped bookings and group travel, the Service can only be used if all members of the group travel Ticketless. The use of Ticketless is optional, except for trips paid totally or partially in Thalys e-Vouchers for which only the Ticketless issue mode is eligible.

2.3.4. Restrictions and scope
Ticketless travel is available for most international connections on the Thalys network, depending on the fare.

2.3.5. Booking confirmation
An instant travel confirmation is sent by e-mail for all Ticketless purchases and exchanges. This confirmation provides the Passenger with a record of all information about their trip (Passenger’s name, date, time, train no., seat no., etc.). If required, in addition to the travel confirmation, the Passenger will also receive a purchase confirmation from the distributor by e-mail for tickets purchased on the Internet or from a travel agent. When a Ticketless trip is cancelled, the Passenger will always receive an e-mail confirming the cancellation.

If required, the Passenger will also receive an e-mail containing information about any disruptions to the Thalys service for his trip. Passengers who provide their mobile telephone number at reservation time will receive the following on their mobile phone prior to train departure time: (i) a seat reminder SMS and (ii) as far as possible, information if Thalys travel is disrupted. If requested, Passengers having a smartphone will also receive (iii) a MobileTicket containing their on-board identification barcode.

2.3.6. Disputes related to Ticketless use
In the event of a dispute about the consumption of a Ticketless trip, the Passenger will have one month after the travel date to file a complaint with Thalys Customer Service. No claims will be accepted after this deadline.

2.3.7. Responsibilities
Neither THI Factory nor Thalys International can be held liable for any absence, delay, loss or wrong distribution of the e-mail/SMS or for it being sent to the wrong address, for any Service unavailability or malfunction, or for any telephone or Internet connection problems that may delay or prevent performance of the obligations it is responsible for as part of Ticketless service. Although THI Factory and Thalys International endeavour to check that all information given to the Passenger is correct, THI Factory and Thalys International cannot be held liable for errors contained in the information or for any consequences thereof. THI Factory and Thalys International furthermore disclaim all liability for fraudulent use of a Ticketless.

2.4. Purchase
Unless otherwise provided in particular conditions, Thalys travel tickets can be purchased by the Passenger via the sites Thalys.com, thalysthecard.com, the Mobile Thalys application and from Carriers (with the exception of THI Factory) and their approved distributors. Handling fees may be added and are payable by the Passenger.

Lost or stolen travel tickets will neither be replaced nor refunded.

For Passengers travelling alone, fares are offered for sale three months prior to the departure date, while for Passengers travelling with the Group option, fares are offered for sale four months before (except for certain trains, including seasonal Thalys trains). Depending on the fare, sales close a few minutes prior to the departure of the Thalys train. The purchase price of a travel ticket includes transport, allocation of a reserved seat and, where applicable, the services specific for the comfort class.

2.4.5. Use of Thalys Vouchers and e-Vouchers
Thalys Vouchers and e-Vouchers, valid for 12 months from their date of issue and on international routes only. E-vouchers can be used only on the Thalys.com website (via the following link: https://www.thalys.com/be/en/book-your-journey-with-your-e-vouchers), or on the Thalysthecard.com website.
When the Passenger purchases a ticket with one (or more) Vouchers or e-Vouchers:
- the value of which is more than the price of the travel ticket in question, the difference will be lost;
- the value of which is less than the price of the travel ticket in question, the difference must be paid either by entering other Thalys e-Vouchers or by debit card.

Maximum five (5) Thalys e-Vouchers can be used per order.

2.5. Checking the ticket and managing irregular situations

1) The Passenger must, before boarding the train, during reception at the door, and/or at any time during his journey, be able to present his ticket and, where applicable, the supporting documents related to the conditions of his journey (e.g. document testifying to a right to special rates, identity card, Thalys TheCard card, 2D code present in the email confirming membership of Thalys Pass, the outward and return tickets when this is a rate accessible on an outward and return journey only).

A Passenger is authorised to travel Ticketless only if he has made a Ticketless reservation and can present a valid confirmation of reservation in his name during inspection:
- a printed travel confirmation e-mail with the 2D barcode or
- a Thalys TheCard card, or
- a MobileTicket if the customer has requested it and has sent his mobile telephone number at the time of his reservation.
Only a digital record in the Thalys information system is deemed valid proof.

2) The holding and/or validity of travel tickets (including that of the supporting documents) is checked on the platform and/or on board by Thalys personnel. If need be, Passenger identity may also be checked. Anyone, even in possession of a valid ticket, who contravenes the conditions governing reservations and/or the use of their ticket and/or these Thalys Terms and Conditions of Carriage, and/or whose behaviour may potentially threaten the safety of the train and/or the comfort of other Passengers may be refused access on-board or be removed from the train, without any right to reimbursement of the price of the ticket. On board, a Passenger who does not have a valid ticket (or who is not in possession of the supporting documents related to his journey) must report on his own initiative to the Train Manager, who will regularize his situation based on the reference price for the comfort class in question, plus boarding charges of €25 (in cash or by debit card – cheques are not accepted). Failing immediate payment, the Passenger could be refused boarding or be excluded from transport, without prejudice to the
drafting of an irregularity report as set forth below, with no compensation for the Passenger being admissible. In this instance, a fixed sum of €40 for case charges will be added to the surcharged boarding rate as described above.

Failing immediate payment by the customer of the sum requested, and/or in an obvious case of fraud, and/or in the event of behaviour likely to prejudice the safety of the train and/or the comfort of the Passengers, the Train Manager will draw up an irregularity report on presentation of an identity document and leave a copy with the Passenger. This irregularity report might generate additional charges and/or later court proceedings, without prejudice to any damages and interest, which will remain the Passenger’s responsibility. In similar cases, holders of an entitlement to special rates, a subscription, or other, will also incur the risk of immediate withdrawal of their entitlement and of the document establishing this entitlement, and are liable for payment of the administrative charges. In the event of clear fraud during a Ticketless trip, any unused Ticketless will not be refunded. If the Passenger has not paid on board the sum required to regularize his situation, and does not make payment within 15 days, either by bank transfer, or by paying online at thalys.com (via the following link: https://www.thalys.com/be/en/payment-of-your-fine-ticket-payment-form), supplementary charges of €150 will be claimed from him for a first reminder and, following the second reminder, the case file will be sent to a bailiff and/or a debt collection agency.

3) For safety reasons and to guarantee on-time departure, Thalys Passengers are required to be present on the platform and ready for boarding no later than two minutes before the train departure time. If they aren’t, they may be refused access to the train.

4) At some train stations (e.g. Rotterdam) Thalys Passengers are required to scan the barcode on their travel ticket at the access gates in order to be able to enter and to exit the station. In such a case, Thalys Passengers are required to (i) print their ticket so that they can scan the barcode that is on it, and (ii) be present at the station sufficiently in advance so that they can be on the platform on a timely basis in accordance with the provisions of Article 2.5. 3) above.

2.6. Availability and over-booking

1) Not all Thalys trains offer the same travel options or number of seats for the different travel options. The lowest cost fares are available in limited quantities. It is therefore recommended that you purchase your ticket as early as possible, based on the fare conditions, to increase the probability of travelling at a preferential price.

2) Trains that are said to be full at reservation time will, however, sometimes have a few available seats, as long as the Passengers don’t show up at departure time. A few seats may therefore be offered in overbooking, but with neither a guarantee of a seat (fold-down seats are available), nor of seat catering in “Premium”. During the booking process and before paying for the travel ticket, the Passenger is duly informed that he is buying a ticket with no guarantee of a seat. In this case, the ticket will indicate “seat based on availability”. He should therefore report to the Train Manager, who will endeavour to allocate an available seat if possible.

2.7. Exchanges and refunds

1. The principle and conditions for exchanging a travel ticket depend on the chosen fare. Exchanges can be made via (i) the issue of a new ticket for IATA travel tickets, (ii) a change to the Passenger’s file for home-print tickets and Ticketless with, potentially, payment or refunding of the price difference. The exchange must be made for the same origin-destination pair as the original ticket. Exchanges are possible as long as seats are available on the train.
2. The principle and conditions for a refund of the travel ticket depend on the fare (Part 3 – The Thalys pricing schedule). Tickets are only refunded in the country of issue:

- in France: at any of a station’s ticket desks and in all SNCF shops;
- in Belgium: in SNCB stations open to international traffic;
- in Germany: in BD stations;
- in the Netherlands: in SNCB stations open to international traffic.

Regardless of the country of purchase, requests for refunds for tickets bought from a travel agency may only be made to the issuing agency, if the type of ticket chosen entitles the Passenger to a refund. The travel agency may apply refund rules with handling fees, which are payable by the Passenger.

Where applicable under the terms of the fare, the refund may take place up to two months after the travel date shown on the ticket.

If the ticket was paid for using a credit card, the point-of-sale will make the refund through the credit organisation.

2.8. Carriers’ liability

2.8.1. Liability in case of physical injury to persons
In the event of the Passenger’s death or injury while providing the transport:
- THI Factory is liable to Passengers for operating the service provided on the Belgian and French rail networks;
- THI Factory and SNCF Voyages Deutschland GmbH are jointly and severally liable to Passengers for operating the service provided on the German rail network in accordance with article 26 § 5 RU CIV;
- NS is liable to Passengers for operating the service provided on the Dutch rail network.

Carriers’ liability (specifically including causes for exemption), and the compensation payable by them under this article, are governed by the provisions of part 11 of the GCC-CIV/PRR.

2.8.2. Liability in the event of damage to personal property

In the event of the death or injury of Passengers, the Carrier is also liable for damage resulting from the total or partial loss of or damage to the personal effects which the Passenger had on him or with him as hand luggage under the provisions of part 12 of the GCC-CIV/PRR.
2.8.3. Liability in the event of failure to observe the timetables: policy in the event of delays, missed connections and cancellations

2.8.3.1. Compensation in the event of delays

Thalys offers several alternative forms of compensation according to the nature and duration of the delay.

2.8.3.1.1. In accordance with the PRR, for any delay equal to or greater than 60 minutes, we will offer compensation worth:

- 25% of the ticket price for a delay equal to or greater than 60 minutes,
- 50% of the ticket price for a delay equal to or greater than 120 minutes.

Compensation may be claimed in Thalys paper vouchers or Thalys e-Vouchers or, at your request, as a refund via bank transfer or credit card.

2.8.3.1.2. For any delay equal to or greater than 30 minutes, which is due to Thalys’ fault, we will offer more generous compensation in the form of Thalys e-Vouchers or paper Thalys vouchers worth:

- 20% of the ticket price for a delay equal to or greater than 30 minutes,
- 50% of the ticket price for a delay equal to or greater than 60 minutes*,
- 100% of the ticket price for a delay equal to or greater than 120 minutes*.

* Monetary compensation by bank transfer or by credit card may be requested at all times but in this case the percentages laid down in the European regulations will be applicable (25% of the ticket price for a delay equal to or greater than 60 minutes and 50% of the ticket price for a delay equal to or greater than 120 minutes).

2.8.3.1.3. Passengers will not be entitled to any compensation if they were informed of the delay prior to ticket purchase or if, after continuation of the trip, the delay is less than 30 minutes (60 minutes in the case of force majeure) on arrival at the destination station.

2.8.3.1.4. To submit a request for compensation (whatever the means of compensation chosen), fill in the online compensation form within three months prior the travel date. Requests presented more than three months after the travel date cannot be accepted.

No compensation will be paid under €4.

2.8.3.2. Rerouting and assistance

Pursuant to article 32 RU CIV (specific legal regime of rail transport law on exonerating causes), also appended to the PRR, Carriers are not legally bound to reroute or assist Passengers, as defined by articles 16 and 18 PRR, when the delay, missed connection or cancellation is due to one of the following causes:

1. Circumstances beyond the control of the rail operation which the Railways, despite having taken the care required in the particular circumstances of the case, could not avoid and the
consequences of which it was unable to prevent, or
2. An error by the Passenger, or
3. The behaviour of a third party which the Carrier, despite having taken the care required in the particular circumstances of the case, could not avoid and the consequences of which it was unable to prevent. Other companies using the same rail infrastructure are not considered to be third parties. The right of recourse is not affected.

2.9. Minors

For safety reasons, children aged under 12 are not allowed to travel unaccompanied on board of Thalys trains, unless with the Kids Connection service. Permission to board Thalys trains for children aged under 12 and travelling unaccompanied will therefore be refused categorically. If parents or legal guardians still leave the child unaccompanied on the platform, Thalys will be forced to contact the Police, who alone is authorised to take care of the child.

Children aged under 12 are allowed to travel when accompanied by an adult or by a child aged between 12 and 18.

Any minor (aged under 18) shall in any case travel under the responsibility of its parents or legal guardians. It is the parents’ or legal guardians’ responsibility to obtain information from the competent national authorities and ensure that the child is in possession of the documents required to cross borders. The Train Manager can refuse access to any minor who does not have the required documents, and contact the proper authorities.

- Concerning the Thalys connections with departure from France, minors residing in France not accompanied by at least one of their parents or one of their legal guardians must be in possession of an Official Authorisation to leave the Country (Autorisation de Sortie de Territoire - AST) required by the French authorities.

2.10. Persons with reduced mobility

1. On presentation of supporting documents, assistance when boarding the train is available for disabled persons and persons with reduced mobility who indicate this when buying their travel ticket, or who inform the station of this before departure by calling:

- In Belgium: +32 (0)2 528 28 28 every day from 7 am to 9:30 pm (cost of a local call according to the telephone provider’s rate) or through SNCB Europe’s online request form for assistance (free service). Assistance can be requested as soon as your Thalys journey is reserved and at the latest 24 hours before departure;
